GLUTEN-FREE FETTUCCINE

Finally, pasta so close to the real thing, you'll forget it's gluten free*. Our rice-based gluten-free fettuccine cooks just like traditional durum wheat pasta, while whole egg gives it that satisfying al dente bite.

Available in three flavors:

- Egg
- Spinach
- Sweet Red Pepper

*Our gluten-free pasta is made in a facility that uses wheat-based flour. Although we isolate all the gluten-free ingredients and clean the machines before production of our gluten-free pasta, we do not recommend it to people with celiac condition.

Sauces

All of our sauces are gluten free.

Ravioli

We are hard at work on this! Gluten-free ravioli is problematic as the absence of gluten makes the pasta very prone to tearing in our ravioli machine. Stay tuned.
